INTRODUCTION

UniSea Fleet Cooperative (UFC) is pleased to submit this document and results of their 2015 Bering Sea fishery to the North Pacific Fishery Management Council (NPFMC) in compliance with annual reporting requirements of the 1998 American Fisheries Act (AFA).

Year 2015 was the sixteenth year of UFC operations under the AFA. The UniSea fleet was managed and operated during 2015 following the successful model established during the preceding 2000-2014 fisheries--basically without change. This document format and 13 exhibits herein reporting UFC co-op members, management, allocations, catches, sideboard limits, prohibited species catches and enforcement is also consistent with UFC's earlier years reporting to the NPFMC. We believe this reporting format and detail is both in keeping with AFA reporting requirements and provides easy comparison to the prior year results.

UNISEA FLEET MEMBER VESSELS AND CO-OP MANAGEMENT

There was one membership change to UFC in 2015 from the prior year. The F/V *Morning Star* left the UFC and entered the AFA open access sector. The *Morning Star* did not make any deliveries to UFC in 2015. Seven individual members of the UFC representing 14 catcher vessels signed their Co-op Membership Agreement, which enabled them to operate under the laws of the AFA in a fishing cooperative delivering pollock to UniSea Inc. during the 2015 fishing season (Attachment 1, UniSea Fleet Cooperative Membership Agreement for 2015 dated 11/11/14, and Pollock Harvest Schedule). The F/V *Mar Gun* and the

57' F/V *Morning Star* did not fish in the Bering Sea in 2015. The 2015 member vessels and their owners are listed below:

Margaret Hall, General Manager, Rondy's, Inc.

- F/V *Alsa* 124 ft LOA
- F/V *Argosy* 124 ft LOA

Jeff Hendricks, Manager, Auriga/Aurora General Partnership

- F/V *Auriga* 193 ft LOA

- F/V *Fierce Allegiance* 167 ft LOA

Rick Mezich, President, F/V Morning Star, LLC.

- F/V *Morning Star* 57 ft Reg. Length

Co-op management and administration continued during 2015 and remained basically unchanged from management and administration of the prior co-op years (Exhibit 1). Mr. Jeff Hendricks continued to serve as the President of UFC and Mr. Todd Shoup served as the UFC Production Director. Coordination of information on allocations, transfers, pollock catches, sideboard catches and prohibited species catches between the UniSea plant in Dutch Harbor, the member vessels, Sea State, the Inter Co-op Manager and the National Marine Fisheries Service all continued during 2015 as established in year 2000 and as conducted in 2001-2014.

UFC BERING SEA POLLOCK ALLOCATION TRANSFERS AND CATCH

UFC 2015 pollock allocation represented 10.589% of the total Bering Sea final directed pollock allocation and 24.510% of the inshore sector allocation. Exhibit 2 shows the distribution of final 2015 pollock allocations between the seven inshore pollock cooperatives. UFC's allocation of 24.510% of the inshore sector allocation ranked UFC as the second largest inshore co-op. In 2015, UFC's 14 member vessels received a final AFA Bering Sea pollock allocation that totaled 140,245.485 mt (Exhibit 3). Each of the 14 UFC vessel's final pollock allocations are identified in Exhibit 3 showing their respective tonnage and each vessel's percentage of the UFC total allocation.

Exhibit 4 reports the final 2015 Bering Sea pollock allocations for each of the remaining and active 12 vessels in the UniSea fleet during the 2015 season after

in-season transfers of pollock allocations between member vessels. Two member vessels (*Mar Gun* and the 57' *Morning Star*) transferred all or nearly all of their 2015 pollock quota to other UFC member vessels.

Exhibit 5 provides UFC Bering Sea pollock catches that occurred during the 2015 season relative to final allocations after all co-op transfers. The UFC directed Bering Sea pollock catch totaled 140,217.663 mt, which was 27.822 mt less than the final allocation. This catch equated to 99.9% utilization of the final 2015 Bering Sea pollock allocation.

The AFA provides that co-op member vessels may deliver up to 10% of the co-op's Bering Sea pollock catch to non-affiliated processors. During 2015, UFC member vessels delivered 138,236.894 mt of their 140,217.663 mt total deliveries to their affiliated plant at UniSea. The UniSea deliveries represented 98.59% of all directed pollock deliveries by UFC member vessels, in keeping with AFA requirements. No pollock caught during UFC operations in 2015 was landed outside of Alaska.

Bycatch of other groundfish, herring, halibut, crab and salmon from the directed Bering Sea pollock fishery is detailed by member vessel in Exhibit 6. Pollock represented 99.07 % of the total catch of pollock plus all other groundfish in the directed pollock fishery.

Vessel-level detail of salmon bycatch in the directed Bering Sea pollock fishery is reported for UFC in 2015 to meet additional reporting requirements under Amendment 84 (salmon bycatch ICA). Specifically, Exhibit 6 summarizes the seasonal (A and B) catches of Chinook and chum salmon (other salmon), and the number of appearances of each vessel on the "dirty 20" lists for both salmon species. To appear on the "dirty 20" list, a vessel must have exceeded the salmon bycatch base rate for that weekly period and have been among the top 20 vessels with the highest salmon bycatch rate for that weekly period.

Additional salmon bycatch measures were in effect under Amendment 91 in 2015. We have been advised that further details of salmon bycatch in 2015 (including the effectiveness of reduction measures) are to be provided in a Chinook salmon IPA annual report and the non-Chinook salmon ICA annual report – both of which are prepared at the Interco-op level.

SIDEBOARD LIMITATIONS, ALLOCATIONS AND CATCHES

The laws of the AFA place limits on AFA qualified catcher vessels whereby their harvest of groundfish other than Bering Sea pollock is limited to historic levels. Halibut bycatch (PSC) is also limited through the co-op sideboard allocations. By AFA definition, all catch of groundfish sideboard species made by non-exempt AFA catcher vessels, whether as targeted catch or incidental catch, are to be deducted from the sideboard limits. These are reported in the final harvest specifications and are intended to be a cap on all catches of these species.

Initial BSAI sideboard limits for all AFA CV cooperatives totaled 50,717 mt for all sideboard species. Of this total, only BSAI Pacific cod was allocated further to AFA co-ops and the allocation to UFC vessels totaled 4,726 mt. A total of 3,506 mt of BSAI sideboard species were caught by UFC vessels and 1,637 mt of UFC allocated sideboards (cod only) were left unharvested (Exhibit 7). Aggregate differences between catch and sideboard limits for all AFA CV cooperatives will be reported in the Inter-coop Report.

Initial GOA sideboard limits for all AFA CV cooperatives totaled 60,489 mt for all sideboard species. In addition to pollock and Pacific cod, shallow and deep-water flatfish were allocated further to AFA co-ops and UFC allocation to vessels totaled 5,537 mt which was the final allocation after no transfers (Exhibit 8). UFC member vessels did not conduct fisheries for pollock or for other species of groundfish in the GOA management region and all GOA sideboard limits were left unharvested.

DIRECTED BERING SEA COD AND GULF POLLOCK FISHERY

UFC member vessels conducted a small directed Bering Sea cod fishery within sideboard limits (4,726 mt) during 2015. This fishery was conducted by four member vessels and yielded a harvest of 2,388 mt (Exhibit 9). UFC member vessels did not conduct a directed fishery for Gulf of Alaska pollock, and they did not conduct directed fisheries for yellowfin sole or rock sole.

Bycatch of other groundfish, halibut, herring, crab and salmon in the UFC directed Bering Sea cod fishery is detailed in Exhibit 10. Cod comprised 94.5% of the total groundfish catch in UFC's directed Bering Sea cod fishery.

As earlier noted, UFC member vessels did not fish Gulf of Alaska pollock in 2015 and there were no transfers of UFC GOA sideboard pollock or cod allocation (Exhibit 11).

DIRECTED CRAB FISHING

Amendments 18 and 19 to the Fishery Management Plan for BSAI king and Tanner crab (70FR 10174 – March 2005), commonly referred to as the BSAI Crab Rationalization Program, have eliminated the prior AFA crab harvesting reporting requirements by AFA pollock vessels.

UFC PROHIBITED SPECIES AND ALL GROUND FISH CATCH TOTALS

UFC member vessel total prohibited species catches of halibut, herring, Bristol Bay red king crab, *bairdi* Tanner crab, other Tanner crab, chinook salmon and other salmon from all directed Bering Sea pollock and cod fisheries are provided in Exhibit 12. UFC member vessels' total catch (landings and discards) for all BSAI sideboard species by area and vessel is shown in Exhibit 13.

UFC MONITORING AND ENFORCEMENT

All UFC directed Bering Sea pollock and cod catches, as well as sideboard catches and the halibut PSC were successfully managed and did not exceed allocations. The co-op was accordingly not required to take any enforcement actions.

Exhibit 1. Schematic of UniSea Fleet Cooperative Operations, 2015.

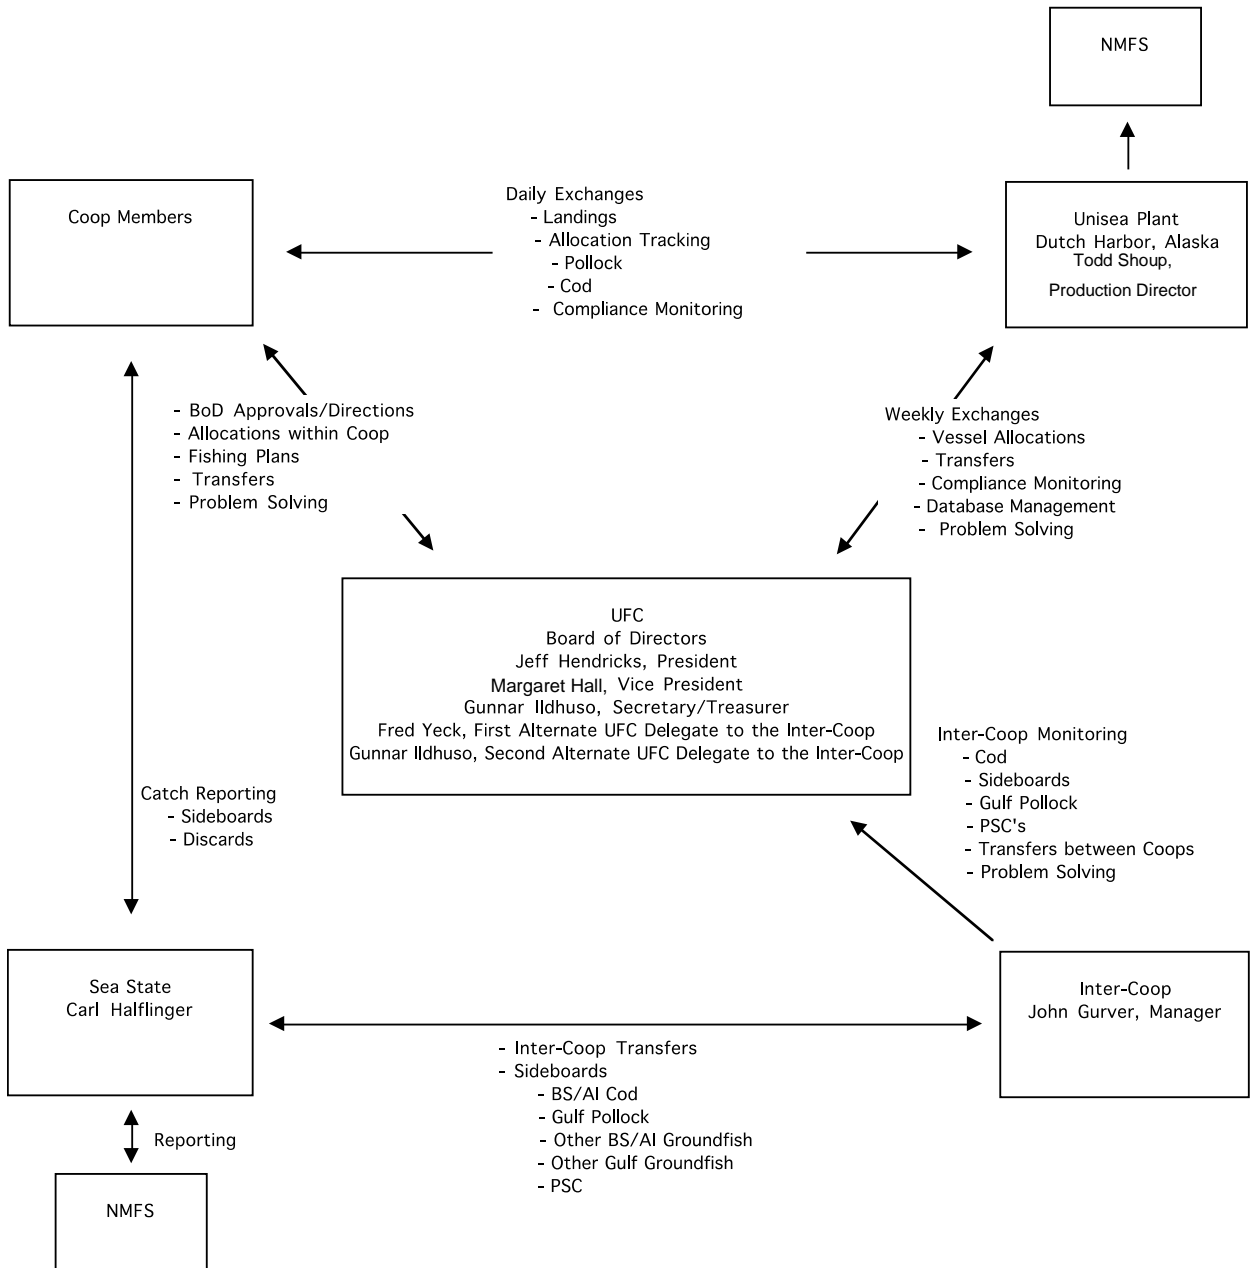

Exhibit 2. Percent distribution of 2015 Bering Sea "inshore pollock allocation" between the seven inshore AFA pollock cooperatives.

Bering Sea Inshore Pollock Co-op 2015 Allocation

Note: some totals are rounded
Total landings and discards of BSAI sideboard species by vessel are provided by Seastate and represent all directed or incidental catch (both landings and discards) taken in all UFC fishing in 2015. F/V Morning Star (57) and the F/V MarGun did not fish in the Bering Sea in 2015. Yellowfin sole is shown but is not a sideboard species in 2015.
* Includes catches from one vessel during Amendment 69 contract fishing.

ATTACHMENT 1

UFC MEMBERSHIP AGREEMENT 2015 ADDENDUM

**UNISEA FLEET COOPERATIVE
MEMBERSHIP AGREEMENT
2015 ADDENDUM**

Each of the undersigned hereby acknowledges and agrees that the terms and conditions of the UniSea Fleet Cooperative Amended and Restated Membership Agreement dated as of September 24, 2010, as amended by a First Amendment to Amended and Restated Membership Agreement dated as of January 4, 2011, and Membership Agreement Addendums dated as of November 16, 2010, November 9, 2011, and December 1, 2012 (collectively, the "Membership Agreement"), is in full force and effect, and binds the undersigned for the year 2015, and that the Exhibit A attached hereto replaces in its entirety the existing Exhibit A to the Membership Agreement.

Each of the undersigned hereby certifies that each of its member vessels as identified on the attached Exhibit A: (i) is a "qualified catcher vessel" within the meaning of 50 CFR 679.4(6)(ii)(D); (ii) delivered more pollock to UniSea, Inc. than to any other AFA inshore processor or stationary floating processor in the last year in which the vessel engaged in directed fishing for pollock in the BSAI for delivery to the inshore sector; (iii) is otherwise eligible to fish for groundfish in the BSAI; (iv) has an AFA catcher vessel permit with an inshore endorsement; (v) has no permit sanctions or other type of sanctions against it that would prevent it from fishing for groundfish in the BSAI; and (vi) is named on a valid LLP permit authorizing the vessel to engage in trawling for pollock in the Bering Sea.

Each of the undersigned further certifies that (a) at least 80 percent of the owners of the qualified catcher vessels are parties to the Membership Agreement; and (b) that the Membership Agreement requires that the Cooperative deliver at least 90% of its BSAI Pollock catch to its designated AFA processor.

Dated effective as of November 11, 2014.
