INTRODUCTION

UniSea Fleet Cooperative (UFC) is pleased to submit this document and results of their 2021 Bering Sea fishery to the North Pacific Fishery Management Council (NPFMC) in compliance with annual reporting requirements of the 1998 American Fisheries Act (AFA).

The 2021 fishing season was the twenty-first year of UFC operations under the AFA. The UniSea fleet was managed and operated during 2021 following the successful model established during the preceding 2000-2020 fisheries - basically without change. This document format and exhibits herein reporting UFC co-op members, management, allocations, catches, sideboard limits, prohibited species catches and enforcement is also consistent with UFC's earlier years reporting to the NPFMC. This report meets AFA reporting requirements and provides easy comparison to the prior year results.

UNISEA FLEET MEMBER VESSELS AND CO-OP MANAGEMENT

There were vessel and vessel management changes in 2021 compared to 2020. Mr. Jeff Kauffman replaced Mr. Rick Mezich as President of Starward, LLC and Starlight, LLC. The *F/V Morning Star* was retired from the AFA and quota and fishing rights ownership was transferred to the *F/V Starfish*. For allocation purposes, and for leasing administration, the F/V Morning Star LLC was still an operating entity. For 2021, the F/V Morning Star LLC was not part of the Unisea Cooperative but still appears in the Cooperative Agreement Addendum dated 11/30/20 with ownership signatures along with the vessel-level percentage of

allocation that appears in the Harvest Schedule as Exhibit A to the 2021 Addendum. Further, the vessel appears in the exhibit tables to track its allocation but the boat is not in the cooperative and was not active. Seven individual members of the UFC representing 12 catcher vessels signed their Co-op Membership Agreement, which enabled them to operate under the laws of the AFA in a fishing cooperative delivering pollock to UniSea Inc. during the 2021 fishing season (Attachment 1, UniSea Fleet Cooperative Membership Agreement for 2021 dated 11/13/20, and Pollock Harvest Schedule). The F/V *Mar Gun* and the 57' F/V *Morning Star* did not fish in the Bering Sea in 2021. The 2021 member vessels and their owners are listed below:

George Hall, General Manager, Rondy's, Inc.

- F/V *Alsa* 124 ft LOA
- F/V *Argosy* 124 ft LOA

Jeff Hendricks, Manager, Auriga/Aurora General Partnership

- F/V *Auriga* 193 ft LOA
- F/V *Aurora* 193 ft LOA

Robert Desautel, Managing Member, Dona Martita, LLC

- F/V *Defender* 195 ft LOA

Chris Swasand, F/V *Nordic Star* LLC

- F/V *Nordic Star* 123 ft LOA

Gunnar Ildhuso, Jr., Margun Enterprises, LLC

- F/V *Mar-Gun* 112 ft LOA

Fred Yeck, President, FY Fisheries, Inc.

- F/V *Sea Dawn* 124 ft LOA

Rick Mezich, President, F/V *Starfish*, LLC.

- F/V *Starfish* 123 ft LOA

Jeff Kauffman, President, Starlite Fisheries, LLC.

- F/V *Starlite* 123 ft LOA

Jeff Kauffman, President, Starward Fisheries, LLC.

- F/V *Starward* 123 ft LOA

Rick Mezich, President, Fierce Allegiance, LLC.

- F/V *Fierce Allegiance* 167 ft LOA

Co-op management and administration continued during 2021 and remained similar to the prior co-op years (Exhibit 1). Coordination of information on allocations, transfers, pollock catches, sideboard catches and prohibited species catches between the UniSea plant in Dutch Harbor, the member vessels, Sea State, the Inter Co-op Manager and the National Marine Fisheries Service all continued during 2021 as established in year 2000 and as conducted in 2001-2020.

UFC BERING SEA POLLOCK ALLOCATION TRANSFERS AND CATCH

UFC 2021 pollock allocation represented 9.532% of the total Bering Sea final directed pollock allocation and 22.094% of the inshore sector allocation. Exhibit 2 shows the distribution of final 2021 pollock allocations between the seven inshore pollock cooperatives. UFC's allocation of 22.094% of the inshore sector allocation ranked UFC as the second largest inshore co-op. In 2021, UFC's 13 member vessels received a final AFA Bering Sea pollock allocation that totaled 132,631.000 mt (Exhibit 3). Each of the 13 UFC vessel's final pollock allocations are identified in Exhibit 3 showing their respective tonnage and each vessel's percentage of the UFC total allocation.

Exhibit 4 reports the final 2021 Bering Sea pollock allocations for each of the remaining and active 11 vessels in the UniSea fleet during the 2021 season after

in-season transfers of pollock allocations between member vessels. Two member vessels (*Mar Gun* and the *Morning Star*) transferred all or nearly all of their 2021 pollock quota to other UFC member vessels.

Exhibit 5 provides UFC Bering Sea pollock catches that occurred during the 2021 season relative to final allocations after all co-op transfers. The UFC directed Bering Sea pollock catch totaled 132,616.738 mt, which was 14.262 mt less than the final allocation. This catch equated to 99.99% utilization of the final 2021 Bering Sea pollock allocation.

The AFA cooperative agreements require that co-op member vessels deliver at least 90% of the co-op's Bering Sea pollock catch to their cooperative processor. During 2021, UFC member vessels deliveries were greater than 90% of all directed pollock deliveries by UFC member vessels, in keeping with AFA requirements. No pollock caught during UFC operations in 2021 was landed outside of Alaska.

Bycatch of other groundfish, herring, halibut, crab and salmon from the directed Bering Sea pollock fishery is detailed by member vessel in Exhibit 6. Pollock represented 99.42 % of the total catch of pollock plus all other groundfish in the directed pollock fishery.

Vessel-level detail of salmon bycatch in the directed Bering Sea pollock fishery is reported for UFC in 2021 to meet current reporting requirements under Amendment 110. Specifically, Exhibit 6 summarizes the seasonal (A and B) catches of Chinook and chum salmon (other salmon). The reporting requirements for the number of appearances of each vessel on the lists of highest 20 vessel's salmon bycatch ("dirty 20" lists) by season for non-Chinook salmon are not provided in this UFC report as in prior recent years because there are no longer industry "dirty 20" lists. Salmon bycatch measures were in effect under Amendment 110 continuing in 2021, which was implemented to improve the management of Chinook and chum salmon bycatch in the Bering Sea pollock fishery by creating a comprehensive salmon bycatch avoidance

program, and UFC salmon bycatch was covered under the inshore Salmon Savings Incentive Plan Agreement (SSIP).

SIDEBOARD LIMITATIONS, ALLOCATIONS AND CATCHES

The laws of the AFA place limits on AFA qualified catcher vessels whereby their harvest of groundfish other than Bering Sea pollock is limited to historic levels. Halibut bycatch (PSC) is also limited through the co-op sideboard allocations. By AFA definition, all catch of groundfish sideboard species made by non-exempt AFA catcher vessels, whether as targeted catch or incidental catch, are to be deducted from the sideboard limits. These are reported in the final harvest specifications and are intended to be a cap on all catches of these species.

Past UFC annual AFA pollock reports have provided details of sideboard allocation, transfers, catch and management (one table with details of BSAI sideboards and one table with details for GOA). New regulations detailed in the Federal Register (FR84 2723) are in effect since last year's report. Referencing those changes –"Rather than continue the annual process of calculating all sideboard limits and then closing most of the groundfish species with sideboard limits to directed fishing, the first action of this rule revises regulations to prohibit directed fishing by non-exempt AFA Program and CR Program vessels for those groundfish species and species groups subject to sideboard limits that have not been opened to directed fishing and that are not expected to be opened to directed fishing in the foreseeable future. Also, NMFS will now cease calculating and publishing each year the relevant sideboard limits subject to this final rule and their corresponding directed fishing prohibitions in the BSAI and GOA groundfish harvest specifications." Under these continuing provisions adopted by NMFS, total catches of all species (including sideboard species) for UFC in 2021 are provided in Exhibit 11.

DIRECTED BERING SEA COD AND GULF POLLOCK FISHERY

UFC member vessels conducted a small directed Bering Sea cod fishery within UFC allocation (2,522 mt) during 2021. This fishery was conducted by four member vessels and yielded a harvest of 1,116 mt (Exhibit 7). UFC member vessels did not conduct a directed fishery for Gulf of Alaska pollock, and they did not conduct directed fisheries for yellowfin sole or rock sole.

Bycatch of other groundfish, halibut, herring, crab and salmon in the UFC directed Bering Sea cod fishery is detailed in Exhibit 8. Cod comprised 98.6% of the total groundfish catch in UFC's 2021 directed Bering Sea cod fishery.

As earlier noted, UFC member vessels did not fish Gulf of Alaska pollock in 2021 and there were no GOA pollock transfers in or out of UFC (Exhibit 9).

DIRECTED CRAB FISHING

Amendments 18 and 19 to the Fishery Management Plan for BSAI king and Tanner crab (70FR 10174 – March 2005), commonly referred to as the BSAI Crab Rationalization Program, have eliminated the prior AFA crab harvesting reporting requirements by AFA pollock vessels.

UFC PROHIBITED SPECIES AND ALL GROUND FISH CATCH TOTALS

UFC member vessel total prohibited species catches of halibut, herring, Bristol Bay red king crab, *bairdi* Tanner crab, other Tanner crab, chinook salmon and other salmon from all directed Bering Sea pollock and cod fisheries are provided in Exhibit 10. UFC member vessels' total catch (landings and discards) for all BSAI sideboard species by area and vessel is shown in Exhibit 11.

UFC MONITORING AND ENFORCEMENT

All UFC directed Bering Sea pollock and cod catches, as well as sideboard catches and the halibut PSC were successfully managed and did not exceed allocations. The co-op was accordingly not required to take any enforcement actions.

Exhibit 1. Schematic of UniSea Fleet Cooperative Operations, 2021.

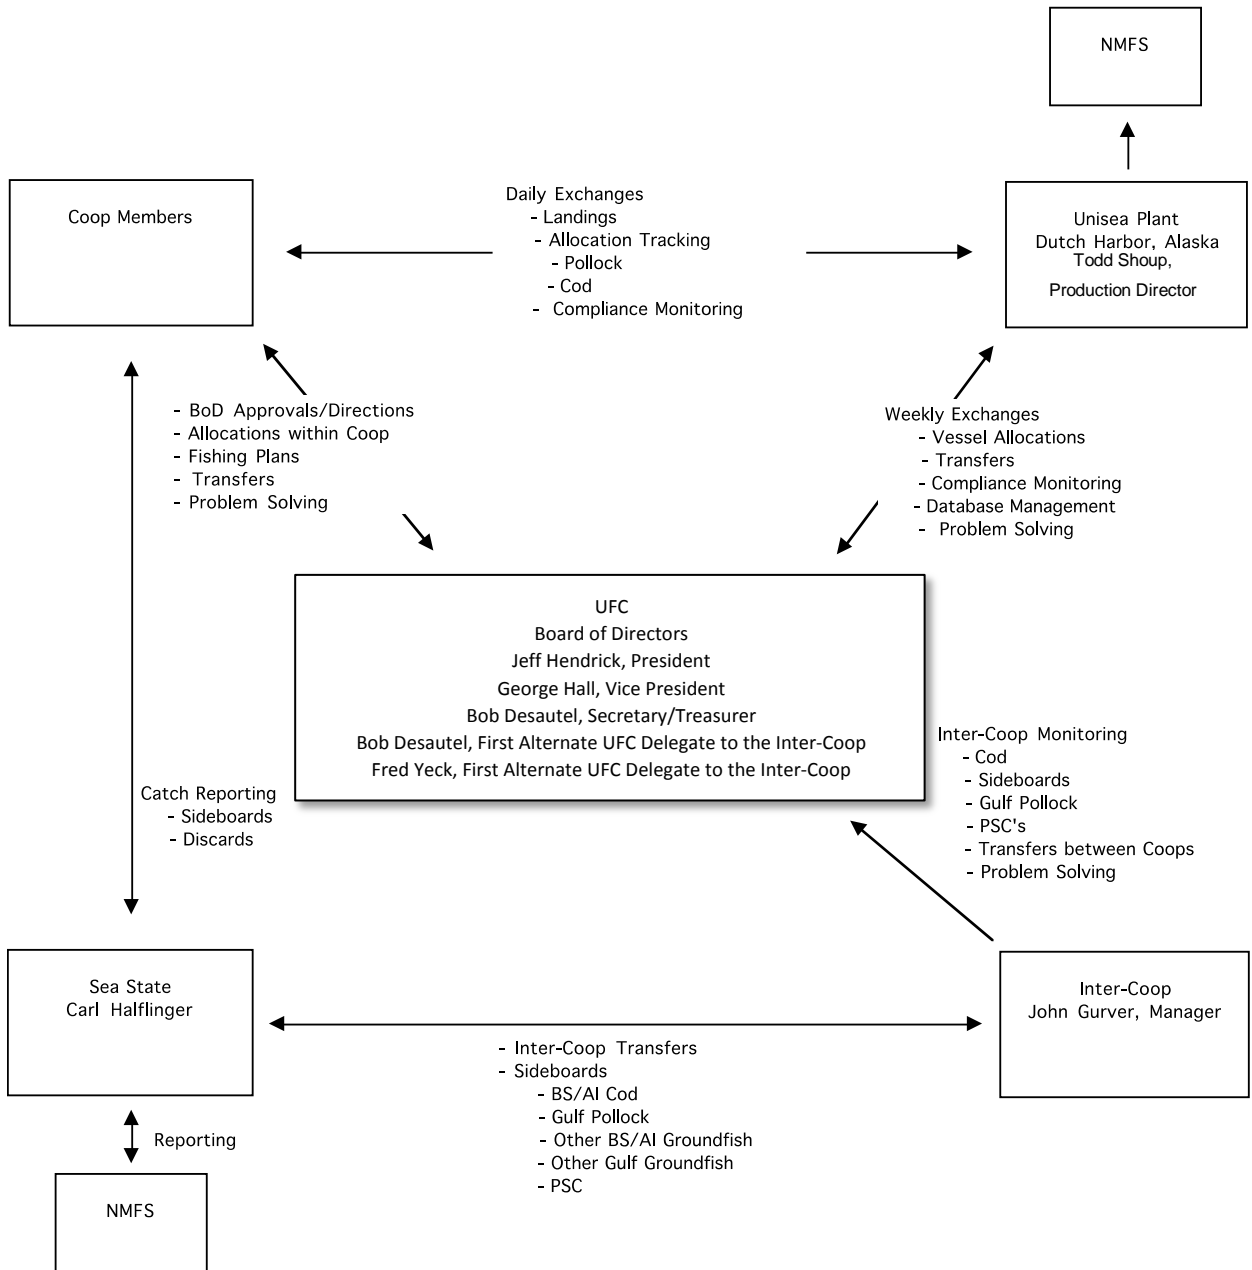

Exhibit 2. Percent distribution of 2021 Bering Sea "inshore pollock allocation" between the seven inshore AFA pollock cooperatives.

Bering Sea Inshore Pollock Co-op 2021 Allocation

Note: some totals are rounded

Total landings and discards of BSAI sideboard species by vessel are provided by Seastate and represent all directed or incidental catch (both landings and discards) taken in all UFC fishing in 2021. Yellowfin sole is shown but is not a sideboard species in 2020.

* Includes catches from one vessel during Amendment 69 contract fishing.

ATTACHMENT 1

UFC MEMBERSHIP AGREEMENT 2021 ADDENDUM

UNISEA FLEET COOPERATIVE
MEMBERSHIP AGREEMENT
2021 ADDENDUM

Each of the undersigned hereby acknowledges and agrees that the terms and conditions of the UniSea Fleet Cooperative Amended and Restated Membership Agreement dated as of September 24, 2010, as amended by a First Amendment to Amended and Restated Membership Agreement dated as of January 4, 2011, Second Amendment dated February 4, 2016, and Membership Agreement Addenda dated as of November 16, 2010, and November 9, 2011 (collectively, the "Membership Agreement"), is in full force and effect, and binds the undersigned for the year 2021, and that the Exhibit A attached hereto replaces in its entirety the existing Exhibit A to the Membership Agreement.

Each of the undersigned hereby certifies that each of its member vessels as identified on the attached Exhibit A: (i) is a "qualified catcher vessel" within the meaning of 50 CFR 679.4(6)(ii)(D); (ii) delivered more pollock to UniSea, Inc. than to any other AFA inshore processor or stationary floating processor in the last year in which the vessel engaged in directed fishing for pollock in the BSAI for delivery to the inshore sector; (iii) is otherwise eligible to fish for groundfish in the BSAI; (iv) has an AFA catcher vessel permit with an inshore endorsement; (v) has no permit sanctions or other type of sanctions against it that would prevent it from fishing for groundfish in the BSAI; and (vi) is named on a valid LLP permit authorizing the vessel to engage in trawling for pollock in the Bering Sea.

Con.

Each of the undersigned further certifies that (a) at least 80 percent of the owners of the qualified catcher vessels are parties to the Membership Agreement; and (b) that the Membership Agreement requires that the Cooperative deliver at least 90% of its BSAI Pollock catch to its designated AFA processor.

The cooperative's designated representative within the meaning of 50 CFR 679.61(c) is Duncan R. McIntosh. The cooperative's registered agent for service of process is Mundt MacGregor L.L.P., 271 Wyatt Way NE, Suite 106, Bainbridge Island, Washington 98110-2873.

Dated effective as of November 13, 2020.
