Pursuant to federal regulations, the Rockfish Program (RP) fishery is open May 1-November 15.

Eastern GOA OA rockfish fisheries are opened and closed pursuant to regulations specific for different species and management areas or by emergency order. The OA DSR fishery is closed when the commercial halibut season is open.

GOA Pollock Open Access

Note that pollock is only open for directed fishing for the inshore component (primarily CVs). CP pollock represents incidental catch.

Relative fishing volume

Low High

(Scale bars are for in-sector comparison and do not represent exact landings numbers.

Harvest includes directed fishing and incedental catch. Data comes from averages of 2012-2020 landings information.)
