

IFQ Halibut and IFQ Sablefish Harvest Timing

North Pacific Fishery Management Council

This summary is intended as a general guide only and is non-binding. Fisheries are subject to closures during the fishing season. For more information, visit the [NOAA In-Season Management Information Bulletins](#) and [State of AK Commercial Fisheries Announcements](#).

The halibut IFQ fishing season is set annually by the IPHC and codified in federal regulations. Pursuant to federal regulations, the sablefish IFQ season is set to align with the halibut IFQ season.

(Scale bars are for in-sector comparison and do not represent exact landings numbers. Data comes from averages of 2012-2019 landings information.)
